Stable... 2-Ply 16" smooth wheel system enables you to be in maximum control

Pro Contractor

FORT-New generation wheelbarrows

FORT-PE100

HD-Designed To Outlast And Outperform The Competition.

patented

450 Lbs Capacity/ 6 CuFt/ Unit Weight 33 Lbs (3 parts easy assembly-7 bolts)
Strong... 1-piece steel zinc finish frame with reinforced leg cross brace, front brace and wear plates for extra durability, dual position wheel plates
Solid... extra **thick** poly bucket with a deep spillproof design to hold more concrete than the competition
HD Wheel... Stable 16" wheel with wide tread to safely maneuver over rough and or soft terrain

FORT-SX120

HD-For All Contracting Needs.

patented

500 Lbs Capacity/ 6 CuFt/ Unit Weight 38 Lbs (3 parts easy assembly-7 bolts)
Sturdy... one piece zinc finish X-Frame with reinforced front and back brace designed to accommodate extremely heavy loads, dual position wheel plates
Control... strong deep zinc plated thick steel tray designed for an amazing stability ensuring the load remains balanced and level. Maximum rust protection
HD Wheel... Stable 16" wheel with wide tread to safely maneuver over rough and or soft terrain

FORT-PX162

In A Class Of Its Own

patented

750 Lbs Capacity/ 10 CuFt/ Unit Weight 44 Lbs (4 parts easy assembly-7 bolts)
Reliable... one piece zinc finish X-Frame with reinforced front and back brace designed to accommodate extremely heavy loads, dual position wheel plates
Size... large load capacity, basically unbreakable poly, only **28" wide** to fit through doorways
HD Wheels... Stable 16" wheels with wide tread to safely maneuver over rough and or soft terrain, easy to push and or pull to move heavy loads
Preference... Can be changed from two wheels to a one wheel wheelbarrow
